

Word of Truth Christian Resource & Training

Adds TVET To Their Curriculum

TVET: Technical Vocational Educational Training.

Some people may have been acquainted with the term TVET , However, it has frequently been mistaken as a secondary option for students with low academic records. Today, the stigma is no longer there as employers are now increasingly paying attention to TVET graduates.

As employers and the educational sectors collaborate to better create plans to encourage more individuals to join the TVET workforce, Rev. Joseph Wainaina, director of the WOT Center is reaching out to students young and old to consider attending the new WOT TVET training centre where they will be taught skills that will improve the work force not only in Maai Mahiu, but in the surrounding communities where students will come from to enroll in the program and attend the Word of Truth Vocational & Technical Training Center. Students will receive certificates and diplomas in the vocational skill they choose to pursue.

Although the name of the centre will be changing to WOT Vocational and Technical Training Centre, the Pastors Resource & Training Centre will remain the same, offering Pastor Training classes to those pastors and church leaders

who have the desire to preach & teach God's Word, but have little or no training due to lack of education and/or lack of financial needs.

From piping to beauty, WOT will begin to offer TVET courses for people of different ages. Some of the classes WOT will offer includes Certificate and Diploma in ICT, Certificate and Diploma in Psychology counseling, Catering and accommodation, Food preparation and culinary arts, Artisan in Fashion Design and garment making, Grade III in Hair dressing, Grade III in Tailoring and dressmaking, Grade III in electrical wireman, Certificate in plumbing, Certificate in social work and community development and Diploma in Pastry and Bakery

Though TVET industry may not be new, the training is new to Maai Mahiu. As the value of TVET continues to be widely acknowledged throughout Maai Mahiu and its neighboring communities, the students training will improve quality and opportunities within the town.

Now that you know about TVET and some of its prospects, would you consider partnering with us to build the Word of Truth Vocational & Technical Training Centre?

• Purchasing property adjacent to the present WOT Centre. The cost of the property is \$13,000.00 USD.

- Putting in a well. \$10,000
- Building the Centre approximately \$300,000.00.
